21 December 1971

State of New Jersey  
Bureau of Solid Waste Management  
P.O. Box 1390  
Dept. of Environmental Protection  
Division of Environmental Quality  
Trenton, New Jersey 08625

Attn: Mr. Arthur Price, Director

Dear Mr. Price:

In July 1971, the City of Bayonne submitted a plan to the State Commissioner of Health to extend its land fill operation into New York Bay, on City-owned land.

A recent article in the local press indicated that the proposed plan could receive opposition from the State and possibly the Federal authorities controlling solid waste operations in the metropolitan area.

Reluctance on the part of interested agencies to approve such operations would cause extreme hardship to the citizens of Bayonne.

It is vitally important that our proposed operation be reviewed by your Agency and written approval be forthcoming in the near future.

We would be pleased to discuss the matter, should you so desire.

Very truly yours,

  
Warren W. Dixon, P.E.  
City Engineer.

WWD/jak
